

Angus Consulting Management Limited achieves ISO 9001:2008 Certification

Leading facility operations management company awarded Quality Management System ISO 9001:2008 certification

TORONTO, ON, December 20, 2013 – Angus Consulting Management Limited (ACML), one of Canada’s most established facility operations management companies, is pleased to announce that the company has achieved ISO 9001:2008 certification.

ISO 9001 is internationally recognized as the gold standard for quality management systems. The standard, published by the International Organization for Standardization (ISO), ensures that organizations are continuously striving to excel at operational excellence through measured performance metrics. This provides customers with a high level of trust in the products and services of ISO certified companies.

“Achieving ISO certification speaks directly to our dedication and commitment to our customers, employees, and programs. As an organization, we are very excited about achieving the certification. It demonstrates that we continue to maintain exceptional standards of service as we strive for continuous improvement.” said Don Campbell, President, Angus Consulting Management Limited.

About Angus Consulting Management Limited

With over 40 years’ experience throughout North America, Angus Consulting Management Limited (ACML) is one of Canada’s most established facility operations management companies.
